

Compliant & Convenient Onboarding FORM I-9 & E-VERIFY COMPLIANCE

Employers manage a significant number of both onsite and remote employees, which can make compliance with employment eligibility laws difficult to achieve and maintain. Streamline your hiring processes, reduce workload, increase processing times, and mitigate legal risk with the Clear I-9 platform.

With Clear I-9 by HRlogics, employees can complete compliant Form I-9 and re-verifications from virtually any location, without the need to login to a separate application or system for remote hires.

Clear I-9's Compliance Is Reviewed By Outside Counsel

WHAT EXPERTS SAY:

"DHS has advised that the COVID-19 temporary flexibilities for Form I-9, Employment Eligibility Verification, will end on July 31, 2023, and that employers must complete in-person physical document inspections for employees whose documents were inspected remotely no later than August 30, 2023. For employees who continue to work remotely, employers may rely on an authorized agent to complete the in-person verification. **By providing a platform for employers to electronically capture the in-person verification by an authorized agent, Clear I-9's electronic verification system can help facilitate compliance.**"

Compliant & Convenient Onboarding

FORM I-9 & E-VERIFY COMPLIANCE

Create error-free I-9s and track all I-9 forms, related documents, updates, and expirations in real time with Clear I-9 software by HRlogics. Our dedicated portal safely provides access to anyone outside your organization to help complete Section 2 of the I-9 without the need to log in to your company's dashboard. For convenient and compliant onboarding, we offer four options for remote completion:

- 1 BUILD A REUSABLE I-9 AGENT NETWORK:**
Create a reusable network of authorized I-9 agents to help complete Section 2.
- 2 USE EMPLOYER OR EMPLOYEE I-9 AGENTS:**
Easily designate a company or employee chosen I-9 representative to complete Section 2.
- 3 ACCESS A NATIONAL NETWORK OF I-9 AGENTS:**
Access a national network of remote I-9 agents trained on completing the I-9 and our system.

4 ***NEW* VIRTUAL REVIEW AGENT NETWORK**

Employers with good standing in the E-Verify program can validate employee documents through a live video call interaction with Clear I-9's new Virtual Review Agent Network. Employers should take advantage of Clear I-9's new network to improve employment verification processes, increase efficiency, and ensure compliance with federal regulations. Clear I-9's innovative approach demonstrates its dedication to transforming employment eligibility verification.

CUSTOMIZABLE I-9 TECHNOLOGY

Add your company's branding to create a customized experience for your staff and employees.

SAFE & SECURE PROTECTION

The Clear I-9 platform utilizes multiple firewalls and virus countermeasures. Our data center features state-of-the-art, physical security and a multi-data center strategy for enhanced business continuity.

CONFIGURABLE PERMISSIONS

Configure custom or default roles and permissions for each user or group to fit the needs of your business.

INTUITIVE & MOBILE-FRIENDLY

Mobile-friendly and responsive for use on virtually any device
