

Some Quotes from our customers:

"We have several clinic locations across the state and opening many more in surrounding states which is why I9 Everywhere has been an essential asset for us. The system makes compliance for remote I-9 employees effortless. We recommend implementing this system for all employees if you're wishing for a faster, more user friendly and compliant I-9 process."

MG, HR, Medical (Staffing units in 8 states)

"We have had an excellent experience working with PointHR and their product "i9 Everywhere" in particular. Most of our workforce is remote so finding an online AND mobile I-9 solution was essential for our business. The tool is very easy to use for our employees and the chat feature allows my office admin to communicate quickly and effectively should she have any immediate questions. I also highly recommend the I-9 audit because they revealed errors that we had neglected simply because we are not I-9 experts. I am very happy with our decision to work with PointHR and am very confident that we are in much better shape than we were before we chose them."

N PO, VP Operations (IT Staffing)

"... an incredible help to my company when we were interested in changing up our process and joining Point HR. For every issue, question, or concern, they have always been there for us with great response time and truly care to help others. They reach the goal of making it easier for us on a daily basis and I couldn't be more appreciative of all that they have done for us thus far."

EB, People Partner, International IT Consulting Co.

"When we initially signed up with your service our office manager wanted to go slow in trying it out as she was not certain about it. Within a few days of us beginning to use the service she saw how easy it was to use for the applicants and the recruiters and she then began encouraging the use of it right away for everyone. Definitely the best way to get applicants through the I9 process and to make sure it is done and all ID collected before they start to work."

TL, Industrial Labor Group of Nationwide Staffing Co.

"the i9everywhere software is working flawlessly."

JM, General Counsel, Construction Company in 50 US States

"Our company has been searching for several years for an electronic I-9 system that would work with our organization policies. Finally, I-9 Everywhere has solved that problem. This system improved our time to hire and has taken the stress of paper I-9's away."

KM, HR, Construction Company in 50 US States
